- **Cursor:** Plus \$8/mo covers Grok models only; third-party models need Premium (\$30/mo+) and bill at API list price (cursor.com/pricing, checked 2026-10-20).
- **Devin Desktop** is Windsurf's new name (renamed June 2, 2026). Teams: \$80/mo + \$40/seat (devin.ai/pricing, checked 2026-10-20).
- **Bolt.new:** token use grows with project size, so real cost can exceed the plan price.
